

Title: Senior Program Manager – Integration
Reports To: VP of Integration and Interior Architecture
Application Deadline: Open until Filled
Posting: Internal/External

- Responsibilities:**
- Serve as the lead for all program activities associated with the design, manufacture, and delivery of large scale commercial aircraft interior integration programs.
 - Primary focal point and customer contact after program inception.
 - Chair the Design and Build Team.
 - Accountable for program schedule, budget and scope of work
 - Develop customer goodwill and confidence through regular and frequent communication.
 - Focal point for receipt and dissemination of all commercial and technical information after contract award.
 - Coordinate internal activities to ensure major milestones are progressed in concert with the program requirements.
 - Initiate pro-active correspondence to communicate program status, on-going financial viability, and identification of key issues to senior management staff on a regular basis.
 - Coordinate problem solving activities; analyze inputs and develop course of action to ensure timely problem resolution.
 - Participate in and support terms & conditions and pricing negotiations with customers and communicate requirements. Coordinate subcontracted services and serve as liaison with customers.
 - Issue and follow up on program change proposals for both commercial and technical scope of work deviations.
 - Initiate invoicing and ensure timely payment for product and service delivery.
 - Administer returned customer parts and warranty claims.

- Requirements:**
- Bachelors degree in applicable discipline or equivalent experience required
 - Minimum 7-10 years applicable experience (aerospace composite interior manufacturing and engineering experience desired)
 - Proven leadership, teamwork, and negotiation skills. Ability to motivate others in a matrix structure team environment
 - Excellent organizational, customer service, communication and presentation skills
 - Ability to travel 10-15% of time
